Speaking

In pairs, prepare a role-play conversation according to the cards below.

Roleplayer card no. 1

Setting: Local medical clinic

Patient: You are 45 years old and are recovering from a mild heart attack. You are seeing the doctor because you want to go back to doing some physical activity.

Task:

- When asked, say you're not feeling any pain, but you are very tired at the moment.
- You love physical activity, especially cycling, and want to know how much activity you can do now.
- When asked, say that you work at an office, so you don't get much exercise.
- Say the information has been useful and ask when the next appointment is.

Roleplayer card no. 2

Setting: Local medical clinic

Patient: You are seeing a 45-year-old patient who is recovering from a mild heart attack.

Task:

- Ask how the patient is feeling.
- Tell the patient it is normal to feel tired at this stage.
- Find out the reason for the visit.
- Ask about their level of physical activity at work.
- Advise moderate physical activity, ideally something like walking or swimming. Cycling isn't recommended right now.
- Ask the patient to come back in two weeks for another assessment.
